**Color density:** 330%

(CMYK)

### Specifications for the creation of PDF:

ISO PDF/X-1a:2001 in high definition, 300 dpi, adaptable to Adobe Acrobat 4.0 (PDF version 1.3).

Materials with transparencies aren't allowed; to manage them it must be created a pdf compatible with Acrobat 4 going through Acrobat Distiller l'EPS (generated by InDesign, Illustrator, XPress etc...) using the profile PDF/X-1a:2001 with aim of output FOGRA39.

### Font:

Included in the document PDF - No TrueType - No CID Font

For colour warnings avoid positioning of negative texts on coloured background and/or coloured texts with a body less than 10 points; the lower bodies with grazed characters, as well as multi-colour wires and frames risk being compromised by any movement of the register during the printing phase.

### How to send:

Via the portal <http://portalemateriale.manzoni.it>

### Dimensions:

PDF in measure with the selected format at the sending including 5 mm of abundance for trim on each side, no marks (for L'Espresso, Il Venerdì and D La Repubblica delle Donne the abundance is 4 mm in the head and foot). Graphic elements, logos and texts shall include a minimum of 7 mm in the live measurement margin to prevent them from being cut during the wrapping of the journal. List of measures selectable at the time of sending.

## Technical Specifications for PDF delivery for the magazines of the Editori Terzi Manzoni
